La Goutte des Saules

At the beginning of Floor-the-Mines, this shaded path will make you discover the high valley of Rahin, tortuous river, punctuated of cascades broods in the middle of the fir trees of the National forest of Saint-Antoine

- 1** While facing the Town hall, leave on the right by a small street. Go up on the left the street of the Vosges (D16), exceed the cemetery.
- 2** After a laundrette, leave D16 to take on the left, the tarred way of the Large Oak. Always follow this way on 2,2 km out of Right Bank of Rahin to join the refuge of Saint-Anthoine (at the end of 250 m, with Montignotte, way on the left for direct access on the heights of the cascade of the Drop of the Willows).
- 3** To the refuge, turn left and reach the cascade of the Drop of the Willows. Climb on the line of the cascade by a very stiff path marked out point of view on the valley of Rahin. In top, from the crossroads, borrow on the right a way going up, direction "Balloon of Servance, GR59". Continue while crossing by twice a forest road. Reach, after 2 km, an intersection under the plate of Bravouse.
- 4** You in the way leading to path GR59 engage on the left. Continue to go up.
- 5** Continue by path GR59, in direction of the collar of Chevestraye to join Belfahy,,

Town hall of Plancher-les-Mines

(vegetation rich in beeches, conifers, bilberries, bilberries). Lead to the carpark of the ski station of Belfahy.

6 With the carpark, continue on the left by the path GR59 which circumvents Belfahy in balcony. Descend on the left the small road in laces, to join D98. Leave the GR59 then.

7 Descend on the left D98 on 100 meters, then take a way on the left going down in the middle of the fir trees. Continue on the left with a crossroads, by a stiff descent in laces on Plancher-les-Mines. Lead to the street of the Vosges.

8 Take on the right and find the Town hall.
