Departure from the center of the village, at the foot of the town hall and the parking lot in front of the small pond.

(D/A) Facing the stairs leading to the town hall and the school, turn right into rue du Fort. At the crossroads, turn left leaving the next two adjacent streets. Shortly after a shed, forget the path on the left. Go past the conservatory orchard.

(1) At the fork, turn left and keep going uphill. Arrived on a wide path, turn right and keep it while skirting a more open space.

(2) At the crossroads, turn left then immediately right. Continue along the edge of the wood, then enter the undergrowth. Go under a power line.

(3) At this new crossroad, turn left.

(4) Make a hairpin turn to the right. Go past la Fontaine Morte. Shortly after, leave the path on the right.

(5) Leave the path and take the downhill road opposite. Leave it in the first curve to take the opposite path. The descent ends on road D111.

(6) Cross it and continue the path. Go along the treatment station on your right, then climb up to the edge of the wood and enter it to reach a glade.

(7) Turn sharp right into le Chemin des Laves. Go under a power line. At the end, continue opposite on the road and at the first houses, continue straight. Go past the sports ground. At the stop sign, go straight. Continue on Grande Rue. Arrived in front of the church, bypass it on the left. At the end of this building, turn right and join the departure point **(D/A)**.

Practical information

Classic equipment to face the weather and the hillside paths.

This marked trail following the markup charter of the Community of Communes of Puisaye-Forterre bears the number 32 inscribed on plates with a yellow background.

The markup was carried out by the association *A chacun son chemin en Puisaye-Forterre* in October 2021.

In case of trouble, thank you to [fill the questionnaire](#) (it will take you 1 or 2 minutes).

Careful when you cross roads.

The fact that the markup is mentioned however requires that you leave at least with this description and its IGN map or the visorando app.

In the nearby area

To be noticed in the Grande Rue, at the level of the café-restaurant, on the left, in an alley, the rather typical facade of an old casino.

Winegrowers for direct sale in the village.
